

ZART TIP!

Cutting Honeycomb Paper
 Designs need to be positioned so that the ribs run horizontally through the design. Once you have your design (template), fold it in half and position it onto the Honeycomb Paper. Cut then open it out to see your 3D design.

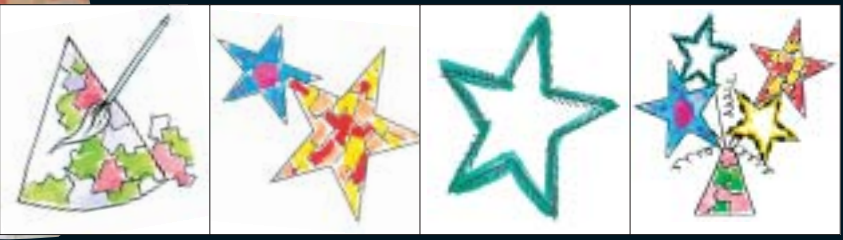

Christmas Table Centre Piece

MATERIALS

- ____ Polycone 20 cm
- ____ Rice paper or Tissue Paper
- ____ Fun Wire
- ____ Florist Wire
- ____ Polystars 50 mm
- ____ Foilboard Stars 60 mm
- ____ Wallpaper Paste
- ____ Bugle Beads
- ____ Glass Enamel
- ____ Finesline Pen
- ____ Tinsel stem Pearl
- ____ Honeycomb Paper

1. Use Wallpaper Paste to glue torn pieces of Rice or Tissue Paper on to a 20 cm Polycone, or glue one piece of Rice Paper wrapped around the cone to completely cover it.
2. Cover a 50 mm Polystar with small torn pieces of Rice Paper.
3. Paint another Polystar with Glass Enamel in bright colours.
4. Decorate a Foilboard Star with lines and pattern using a Finesline Pen.
5. Form a small star with a Pearl Tinsel Stem.
6. Use a small length of Florist Wire or Fun Wire to thread beads on to and form a star shape. Try using Bugle Beads or small Pearl Beads.
7. Create star shapes from Honeycomb Paper.
8. Attach each star made on to the end of a small length of Florist Wire and poke the other end of the wire into the top of the decorated cone.
