

Stained Glass Poly Balls

MATERIALS

Glass Enamel

Glass and Tile Cern Outliner

50 mm or 60 mm Polyball

Satay Stick

Satin Ribbon

1. Poke a Satay Stick into a Poly Ball for easy handling when painting.

2. Use the Glass and Tile Cern Outliner to outline the stain glass design on the Poly Ball. Allow to dry. Stand the painted ball by poking the other end of the Satay Stick into a block of Polystyrene.

3. Paint in between the lines of Outliner with Glass Enamel and set aside to dry.

4. Pin a loop of Satin Ribbon to one end and hang the painted balls from the Christmas tree or around the room.
